To whom it may concern,

The Organising Committee of the II Central Asian Congress of Urology expresses its respect and gratitude to you for the active and fruitful collaboration with our team in the preparation of this event.

In preparation for the II Central Asian Congress of Urology, a lot of work was planned with the involvement of leading speakers on topical issues of oncurology, urolithiasis, andrology, conservative and operative urology.

Unfortunately, due to the epidemiological situation in the world with the COVID-19 virus, all public events with international participation have been suspended. In this situation, all preparatory work on the organisation and conducting of the II Central Asian Congress of Urology has been postponed for indefinite term.

We are closely monitoring the situation with the COVID-19 virus in the world and following all the recommendations of the World Health Organisation (WHO) and the Ministry of Health of the Republic of Kazakhstan on the possibility of planning and determining the timing of the urologists' congress.

We remain optimistic about the implementation of our plans and the success of this event

We will inform you additionally about the stabilisation of the epidemiological situation in the world and the determination of the timing of the congress.

Anuar T. Amanov
Chairman of the Central Asian Congress of urology (CACU)
Chairman of the Kazakh Association of Urology and Andrology (KAUA)
Chairman of Board of the B U Dzharbusynov Scientific Centre of Urology
